when our doctor, several years ago, prescribed it for an epidemic of sore throat. You know how it runs through a family.

"We like Formamine because it relieves so quickly and is so much more convenient than gargles and sprays, especially for the children who hate such remedies

Then you remember the 'flu' epidemic. How fearful we all were of crowded, stuffy places; theatres and shope; crowded cars and illy ventilated school rooms. Again the whole family 'Formaminted' their throats and mouths, by using the pleasant tasting tablets freely, whenever there was danger of contagion.

Formamint must be really antiseptic, because none of us had the 'flu,' and few had sore throats, that whole winter. You can put our family down as Formamint enthusiasts."
